

EcoNote+ Assembly Guide

This guide will help you assemble your EcoNote+ hardware step-by-step.

1. Insert the Raspberry Pi 4B into the 3D printed bottom case.
2. Attach the HDMI display mount using screws (if needed).
3. Connect USB keyboard and mouse.
4. Insert the MicroSD card preloaded with EcoNote+ OS.
5. Connect the power bank to the USB-C port.
6. Press power and verify LED lights up.

Note: GPIO-based LED will blink if setup is correct.

Use the provided schematic and layout files in KiCad to inspect the board.
